All dimensions are approximate (mm).

Options	
Option codes must be placed in alphabetical order after chair code.	
A2	Moulded loop arms
A5	Height adjustable arms
B1	Polished base
C5	Glides
D1	Polished footring (standard lift)
D2	Polished footring (high lift)
E	Ergo-sit cushion
SS	Slide seat

Nova was designed for such an environment. Developed to withstand hours of punishing hard work, Nova does not compromise on ergonomics or comfort. Using Sturdy Framac's heavy-duty alpha mechanism and heavy duty magnum base, Nova components are designed to take the load.

For those environments where you can sit for extended periods, Nova can be optioned with Ergo-sit multi density cushioning system to reduce pressure points on the buttocks, thereby reducing the occurrence of 'pins and needles to the legs' and promoting a healthy posture.

With a slide seat option and a wider seat than the average task chair, nova gives you that little extra.

Not all models have AFRDI certification. AFRDI certifies for select models available upon request.
