"Integrating creativity and modern aesthetics"

LYNX TASK

LY25

The Lynx is a value for money solution for purchasers of task chairs who require style, strength and reliability within tight budget constraints.

As our entry level range, the only thing inexpensive about the Lynx is the price. Materials, workmanship, design and after sales service offered are the equal of any Sturdy Framac product.

Lynx has been designed with a no frills policy using the most cost effective solution without compromising ergonomics. If you are looking for an economically priced task chair for your office and do not want to compromise on ergonomics or quality, then you will find it hard to go past the Lynx range.

Lynx chairs are available with medium or high backs, tilt and non tilt seat and back. Except for fixed height models, all are fitted with gas lift and back height adjustment.

Approved Supplier
SCCB Contract No. 1006
20/10/2009 - 8/02/2013

L6
Not all models have AFRDI certification. AFRDI certificates for select models available upon request.

DRAFTING

LY20D3 non tilt seat
 LY26D3 3 paddle mech

SLIDE SEAT INSTRUCTIONS

The Slide Seat mechanism allows the seat to slide forward increasing the seat depth by 50mm. It offers 5 locking positions.

As depth between the back and seat increases it allows larger people more comfort.

To operate simply lift the handle and slide the seat forward or backward to adjust into a one of the 5 locking positions. The mechanism should find each locking position without any force necessary.

Sturdy Framac pursue a policy of continuous improvement and reserve the right to introduce modification when required and to withdraw models without previous notification.
