

# LYNX VISITOR CHAIR

## LYNX 4 LEG LY945

The Lynx Visitor range of chairs is a value for money solution for purchasers of visitor chairs who require style, strength and reliability within tight budget constraints.

As our entry-level range, the only thing inexpensive about the Lynx Visitor is the price. Materials, workmanship, design and after sales service offered are the equal of any Sturdy Framac product.

Lynx Visitor has been designed with a no frills policy using the most cost effective solution without compromising ergonomics. If you are looking for an economically priced visitors chair for your office and do not want to compromise on ergonomics or quality, then you will find it hard to go past the Lynx range.

Lynx Visitor chairs are available in 4-Leg or sled base, with or without arms and in a black, chrome or silver powdercoated finish. Both 4-Leg and sled models are available with our linking option for those areas where you need to link the chairs together.

4-Leg models are stackable in groups of 3 or higher on an optional stacking trolley when storage space is at a premium.

Not all models have AFRDI certification. AFRDI certificates for select models available upon request.
