WAVE MESH BACK

Wave Task chairs have extended the norm to include modern aesthetic detailing across the entire range completing the total fitout. For the first time the chair design will tie your office together, not just your choice of fabric.

Wave task chairs offers the complete family solution, from TASK to EXECUTIVE and from workstation to the boardroom. Employing our ratchet back adjustment system allows the user to adjust the backrest from the seated position.

Wave task chairs can also be fitted with our Ergo-sit seat cushion design, which uses a unique blend of multi density foam for additional support to the buttock area, thereby promoting good posture.

Wave task chairs are available with non tilt, tilt or independent seat and back tilt and synchronized mechanism. Except for fixed height models, all are fitted with gas lift and ratchet back height adjustment.

You can view the Wave Task chairs online by [clicking here](#)

A4 Chrome adjustable arm	A5 Height adjustable arm	A6 Tulip arm	B1 Polished aluminium base	B11 Polished spider base
B10 Black spider base	C1 Brake castors (carpet floors)	C2 Brake castors	C5 Glides	D1 & D2 Aluminium footring
D3 & D4 Black plastic footring	E Ergosit seat cushion	S2 Small seat (500W x 460D)	S6 Large seat (560W x 500D)	SS Slide seat

SLIDE SEAT INSTRUCTIONS

The Slide Seat mechanism allows the seat to slide forward increasing the seat depth by 50mm. It offers 5 locking positions.

As depth between the back and seat increases it allows larger people more comfort.

To operate simply lift the handle and slide the seat forward or backward to adjust into a one of the 5 locking positions. The mechanism should find each locking position without any force necessary.

Sturdy Framac pursue a policy of continuous improvement and reserve the right to introduce modification when required and to withdraw models without previous notification.
