

STUDIO HIGHBACK

Studio Highback

The **Studio Highback** is a contemporary lounge seating solution designed to provide comfort, privacy, and visual impact in commercial interiors. Featuring a high back and gently curved form, it offers a sense of enclosure that supports focused work, informal meetings, and relaxed waiting experiences. Fully upholstered with clean, refined detailing, it combines generous cushioning with a smooth, sculptural profile. Slender timber legs lift the design, adding warmth and contrast while maintaining a light, modern aesthetic suitable for a wide range of workplace and hospitality environments. Well suited to reception areas, breakout spaces, collaborative zones, and waiting areas, it balances functionality with architectural presence.
