## Modulus Table

The **Modulus table** combines timeless design with exceptional structural performance, making it a versatile solution for modern workspaces. Built around a universal leg platform, it supports a wide range of table configurations, allowing seamless integration across boardrooms, meeting rooms, and collaborative environments. At the core of the system is its distinctive A-shaped rail and socket design, which securely locks each component into place to deliver outstanding strength and stability. This engineered connection system not only enhances durability but also ensures a clean, refined aesthetic with minimal visible fixings. Designed for both flexibility and reliability, the Modulus system offers scalable configurations to suit varying room sizes and layouts. With its robust construction, premium finishes, and adaptable design, it provides a sophisticated and dependable solution for high-performance meeting spaces.

### Available Dimensions (mm):

- Custom sizes within the following range are available upon request
- 1400mm - 7400 L x 800mm - 2000mm W x 720 H

### Weight Rating

- The weight rating for the modulus tables is 160 kg, provided the weight is evenly distributed.

### Features

- Powder coated posts and rails with polished alloy feet, collars, connectors, and worktop supports
- Robust A-shaped rail and socket system for strength and stability
- Universal leg design supporting a wide range of table configurations
- Wide selection of tabletop colours and finishes to suit any workspace
- Fixed height design (where applicable)
- Adjustable levelling glides for stability on uneven surfaces
