Adjustable Workstation Range

Designed for everyday functionality, the **Fixed Workstation Range** provides a clean and practical solution for individual workstations. With its simple, streamlined design, it integrates easily into a wide range of office environments, from open-plan offices to private workspaces. Featuring a durable melamine work surface, the workstation offers dependable strength for daily commercial use. Its fixed design ensures stability, making it well-suited for permanent workstation setups where reliability and low maintenance are essential. Available in a range of sizes and finishes, the workstations can be tailored to suit different layouts and design requirements, including uneven and non-standard configurations. Smooth, sealed surfaces allow for easy cleaning and maintenance, while the durable construction ensures long-lasting performance in busy office environments. Optional additions such as modesty panels, integrated cable management, and above- or below-bench power and data provisions are available to enhance functionality and suit a variety of workstation requirements. For further details on available sizes, finishes, and configuration options, please contact us directly.

Sturdy Framac pursue a policy of continuous improvement and reserve the right to introduce modification when required and to withdraw models without previous notification. Sturdy Components Pty Ltd trading as
