

Lynx Stool

Optional Extras

S2 Seat - Draft

Round Seat - Draft

Lynx Stool

The **Lynx Stool** is a versatile and ergonomic seating solution designed for laboratories, workshops, healthcare environments, and industrial applications. Featuring a generously padded seat and a robust five-star base, the Lynx Stool provides comfort, stability, and durability for extended periods of use. Available in both standard and drafting-height configurations, the Lynx Stool can be tailored to suit a wide range of workstations and task requirements. The height-adjustable seat allows users to achieve an optimal working position, while the durable construction ensures reliable performance in demanding environments.
